Superintendent's Highlights

Academics have been the major target, with increased time on task for teaching and learning. Students in the elementary grades have been provided a minimum of 40 hours of 1:1 reading instruction with a trained adult, above and beyond that provided by the classroom teacher. A computerized math skills program is underway, which will provide similar time and hoped for similar results. We also have a new classroom addition consisting of 2 classes a science lab a small office and conference room.

Progress Towards Meeting District Goals

2000-01 Goals	Progress
The majority of students will be reading at or above grade level.	We have obtained a 25% increase in the number of students who now meet this goal.
The majority of students will do functional math at or above grade level.	Assessments have been completed and prescriptive programs in place with significant gains started in mathematics.
